Work experience —2 years 10 months

March 2023 — till now
1 year 8 months

IT Works

Web programmer

My third job is at IT Works, where I work as a backend developer. In this role, I focus on teamwork, client communication, and project sales. I collaborate closely with my team on various projects, identifying client needs and offering effective solutions to meet their requirements. Additionally, I play a key role in successfully selling projects and establishing strong relationships with clients.

May 2022 — February 2023
10 months

Technical-Doctor

Web programmer

My second job was at Technical-Doctor, where I worked on two large projects alongside my mentor. During these projects, I gained valuable experience in processing large amounts of data, developing complex systems, and managing them effectively. Working with my mentor helped me further strengthen my technical knowledge and apply it in practice.

January 2022 — April 2022
4 months

iTeach

Web programmer

My first job was as a developer at iTeach. During my time there, I created small websites for several companies. These projects allowed me to enhance my web development skills and gain experience in designing and optimizing websites according to client requirements. My experience at iTeach significantly fueled my passion for programming and contributed greatly to my subsequent career.
